

Level 2 Creative Media Production & Technology (Content Creation)

Course Overview

Dive into the World of Digital Content Creation!

This Level 2 Content Creation course is your starting point for mastering the art of creating engaging content across a variety of exciting digital media platforms. Built upon the UAL Level 2 Creative Media Production and Technology framework, you'll gain a foundational understanding of the principles and practices behind podcasting, shoutcasting, streaming, video production, digital advertising, and creating compelling content for various social media platforms.

Through a dynamic blend of hands-on workshops, demonstrations, engaging discussions, collaborative projects, and the development of your own creative portfolio, you'll learn the practical skills and theoretical knowledge needed to bring your digital ideas to life. Whether you're eager to produce your own audio shows, broadcast live events, build a vibrant social media presence, or explore the world of online video, this course will equip you with the essential tools and insights to thrive in the digital age.

This course is perfect for individuals who are:

- Interested in exploring the diverse world of digital content creation, including audio, video, and live formats.
- Looking to develop practical skills in audio and video production, as well as content creation for social media.
- Aspiring to work in the dynamic creative media industries.
- Seeking a strong foundation to progress to further studies in media production or related fields.
- Interested in enhancing their digital literacy and expressing their creativity across online platforms.

What You Will Study

This course provides a practical introduction to content creation across key digital media. You'll learn the fundamentals of:

- **Creative Media Production:** Understanding the landscape, audiences, and ethical considerations.
- **Audio Content:** Planning, recording, and basic editing for podcasts and shoutcasts.
- **Live Streaming:** Setting up and engaging with live online audiences through streaming.
